

MIXING GUIDE

SINGLE SERVE

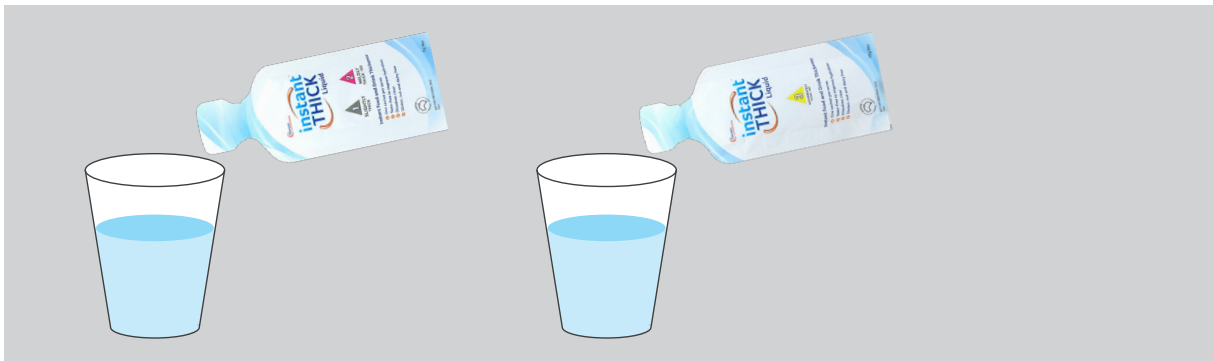

Suitable for cold drinks (4-10°C), including water, carbonated drinks, cordial, juice and milk. Plus, hot drinks, including tea and coffee.

STEP 1 Select the drink and measure the recommended fluid volume.

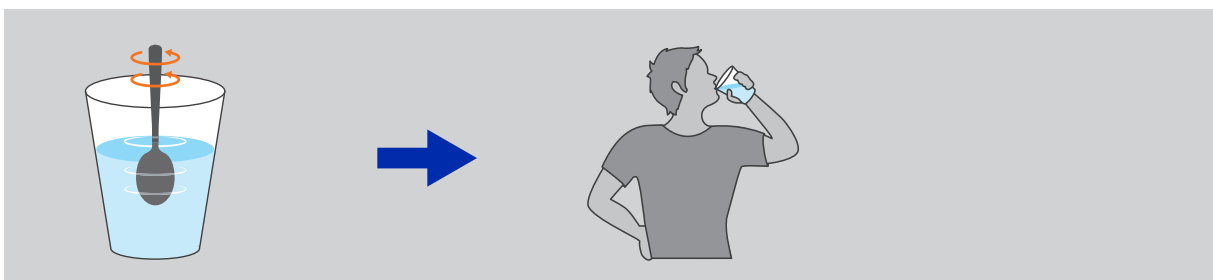

For Carbonated Drinks stir until bubbles subside. Remove any excess foam from the surface, to prevent excess bubbling when adding instant THICK Liquid.

STEP 2 Add contents of one (1) sachet.

STEP 3 Stir until desired thickness is reached. Serve immediately*.

*Before serving:

- For milk allow to stand for 10 minutes. Re-stir until desired thickness is reached.
- For carbonated drinks allow to stand for 5 minutes. Re-stir until desired thickness is reached.
- For room temperature (19-23°C) drinks allow to stand for up to 5-minutes. Re-stir until desired thickness is reached.
- For hot drinks, temperature must not exceed 50-55°C when served, for consumer safety and comfort.
